Whoopie !! Big Stampede in Bassano, Monday, July 1st

Horse Races - Bucking Contests - Roping - Riding - Athletic Events

Children's Sports - Cowboys - Indians - Carnival - Band - Dancing

Swimming Pool Will Be Opened This Week-End

New Dressing Room Built and Other Improvements Made

The Bassano swimming pool will be opened on Saturday, June 12th, according to an announcement made by Geo. Travis, chairman of the Board of Trade swimming pool committee. Tickets are now on sale, and those who wish to take their first dip of the season should get their tickets at once.

The opening of the pool has been delayed owing to improvements being made, but everything will be in readiness for Saturday. New dressing rooms have been built for the adults, and the children will use the old dressing rooms. The deep end of the pool has been floored with brick and stone to prevent the mud from being stirred up, so it is expected the water will be much clearer this season. Sand and gravel have been placed around the diving boards to cover the clay which last year became dangerously slippery when wet.

A lifeguard will be at the pool during bathing hours.

TENNIS TOURNAMENT

The executive of the Bassano Lawn Tennis Club has launched a tennis tournament which was scheduled to begin Wednesday, June 23rd, but as a start could not be made on that date these games in the first draw will be arranged as the players find the time convenient.

There will be doubles and single games. The draw for the singles has not been made. The doubles draw is as follows:

Wed. June 12, 7:00 p.m.

Donaldson & Hogan vs Redmond and Miss McArthur.

Keith and Miss McFarlane vs P. Holmes and Miss Wallace.

Thursday, June 13, 7:00 p.m.

Jan. Wright and Orline Hartley vs H. Holmes and B. Ford.

D. Catbrow and P. Johnson vs Mc-Laws and Miss Catbrow.

Friday, June 14, 7:00 p.m.

Blankenbush and Miss Lator vs L. Leonard and H. Biscoe.

Bachelor and Miss H. Johnston vs Newby and M. D. Macdonald.

Saturday, June 17, 7:00 p.m.

McGraw and Bond vs A. Catbrow and Miss Florence Leonard.

Rumions and Miss Katherine Hunter vs Smith and Miss Gladys Hunter.

Tuesday, June 18, 7:00 p.m.

Play-down in eight to determine semi-finalists.

Wednesday, June 19

2:00 p.m. semi-finals; 4:00 p.m. finals.

Board of Trade

The business at the Board of Trade meeting at one o'clock on Wednesday, June 12th, was hurried through in order to permit time for an address by J. G. Haney, agricultural expert, who was a guest of the board.

In connection with the Cassie-Bassano road, it was reported at the meeting that the Public Works Department in Edmonton informed the Board that this road could not be built this year, but may be considered next year.

Geo. Travis, chairman of the swimming pool committee, announced a number of improvements in the pool, and said that it would be opened on Saturday of this week.

The motion to donate a sum of \$50 to the baseball club in compensation for their blackness was passed without comment, having been thoroughly discussed at the last meeting.

Hussar News

HUSSAR, June 12—Miss Grace Smith, teacher of Windsor Hill school, who has been visiting with Miss Irene Warfield for the past three weeks, left on Sunday for her home at Hanna. Her health is much improved and after a visit home she hopes to spend the summer at the coast.

Mr. J. H. Morgan and Mrs. T. L. Montgomery returned to Calgary on Thursday.

Mr. Hildebrandt came up from the States on Friday on business.

(continued on back page)

BASEBALL

There is no rejoicing in the city of the Bassano Bears. The skies are dark, and an air of gloom pervades everywhere. For the Arrow-wood team came over Wednesday evening and walloped the Bears by the score of 17-4. The game was a tragedy of errors, and the poorest game the Bears have played this year.

The Texas Colored Giants won both games of a double header ball program Monday afternoon and evening, the first by the score of 8-7 and the second 8-7. The visitors won handily in the first game, but in the second they were extended to the limit of their skill in order to win.

In the sixth inning of this game the Bears went on a hitting rampage and drove one pitcher out of the box. Rumions and Ralph Burrows each cloaked out home runs, and when the new twirler

"Are You A Mason?" Will Be Shown Again

Bassano Amateurs Will Be Seen Again in Famous Comedy on Saturday Night

The second presentation of "Are You A Mason?" will be given in the Masonic Community Hall on Saturday evening, June 12th. The first appearance of the show, several weeks ago, drew a capacity house, and was accorded a most enthusiastic reception.

Many people who could not get seats for the first show will welcome the second opportunity to see this hilarious farce.

Countess News

COUNTRESS, June 13—The Clive children have been out of school on account of illness.

Mr. Horenson and son Fred have been doing some carpenter work for A. M. Anderson.

Many went to Bassano Saturday evening for the movie "Lila Time."

Countess was well represented at the ball game in Bassano Monday.

A number of Bassanoites attended the dance at Countess Friday evening of last week.

Mrs. Warster, of Latham, was over for the dance, among others from that district.

Mrs. A. M. Anderson entertained a number of friends at afternoon tea on Tuesday.

The crops and gardens are looking fine since the rains.

Many are busy irrigating, as the weather which fell during the past few days was not sufficient.

Mr. Bolton, of Boston, was at Countess this week looking over his farm, which is worked by H. Cowen.

There will be services and Sunday school at the hall during the summer. Everybody welcome Sunday school at 2:30 and preaching at 3:30.

Mr. and Mrs. Gamble and family visit with Mr. Chamberlain.

came in Hornequist biffed out another homer. The colored visitors took the lead in the last inning when they scored two runs, and the Bassano boys were unable to even the count.

In the first game the Giants had the edge by a fair margin, but it was an interesting game to watch. Jakey Bulmer pitched the first game, and Yankee Pickett the second. Pickett hit a home run in the first game.

The colored visitors have a strong ball team, and so far have won every game on their tour. They said the game in Bassano were the best they had to date.

Preparations Being Made For Bassano's Big Stampede

The Program of Entertainment is Being Shopped for Annual Stampede and Sports Day, Monday, July 1st

With the date of Bassano's big stampede only a little more than two weeks away, the committee in charge of the various parts of the program are spending much time and effort to provide a high class entertainment for the great crowd that will be in Bassano on Monday, July 1st.

Bassano has the reputation of putting on one of the best stampedes in Alberta outside of the cities, and with that reputation to uphold, nothing is being left undone to make the 1922 stampede a success. The program includes children's races in the morning, and in the afternoon men's athletic events, bucking and horse racing, roping and riding, and all the thrilling stampede features which are a part of western life. And the carnival, with its many interesting games, will provide endless amusement all afternoon and evening. There will be something doing all day long—no dull moments, entertainment and fun for every one.

One feature of the day's entertainment

will be the boxing match between Billy Boyce and Billy Boyce.

Mr. Tanguay and family spent Sunday at the home of Mr. and Mrs. Lesque at Countess.

C. C. Narum is doing carpenter work on a home near Alton.

A number of Rosemary people motored to Bassano Saturday to see "Lila Time."

Mr. and Mrs. Eaton enjoyed the company of the Adams family Sunday.

Roy Norton is the proud possessor of a home near Alton.

Mr. Thacker, who is working for Mr. Stanton at Duchesne, was visiting his sister, Mrs. Rosette, Sunday.

Mr. and Mrs. Hall visited at the Napper home in Sunday.

The Pool elevator is complete, and now stands ready for business.

Mr. Glendie and family motored to the coast last week-end.

Neil Tassart went to Calgary last Tuesday, returning Saturday.

Miss Fay Robinson spent the week-end at her home near Chinook.

Miss Cora Narum went to Arrowood last Friday evening, the occasion of the 1922 Birthday. Lunch was served at Lindhead, and those present were: Misses Fay Robinson, Margaret Norton, Madeline Eaton, Louisa Eastman, Ruth Brantwell, Erma Norton, and Wilma White.

Meas. C. Graham, Johnnie Schmidt, Frank Decker, John Norton, Neil Tassart, Johnnie Narum, Hank White, Everett, David, and Lillian White; also Mr. and Mrs. Norton.

Gem News

GEM, June 12—Fishing was very poor on Sunday last in the Gem Lake. Not even a trout reported by the boys, and a few of the old fishers.

Mr. and Mrs. Dodd and family are leaving the district this week. They have bought the White Farm where they will reside in future.

J. T. reports big losses in the young lambs this season, having already lost more than a hundred.

Miss E. Dodd, who holds a position in the Duchesne bank, was home for the week-end.

Walter Walton entertained a couple of young lady friends from the Hunter district over the week-end.

Misses M. Chamberlain and Selfridge are expected home in the near future for the summer holidays.

Mr. and Mrs. Deickman left on Wednesday for Rochester where Mrs. Deickman will take treatment from the famous Mayo Brothers. We all sincerely wish Mrs. Deickman a speedy recovery to good health and a safe return to her home again.

Several members of the community attended the baseball game held in Bassano on Monday last.

Misses E. and F. Dodd are making quite a good reputation as a baseball player. He has played with Bassano on several occasions.

Mrs. D. Kay, with Mrs. Don Lester and others, of the Cassie district, made a tour through the Gem Colony and district on Thursday last.

The ladies making a personal appeal to members of the community and trying to arouse their interest in the purchase of Seventh Day Adventist.

Almost every farmer in this district is irrigating or making his crops ready for irrigation.

Usual church services on Sunday next in the Gem school, morning and evening.

Mr. and Mrs. R. Lawrie were planning on a visit to Scandia on Sunday last.

Invitations were given by the Gem school on Saturday last.

Misses E. and F. Dodd to quite a large number of the younger set on party to be held at the Dodd farm on Saturday last. The invitations were gladly accepted by the large number who attended and enjoyed a pleasant evening in which games, musical selections, and dancing formed the program, followed by most delicious luncheon served by the young ladies and assisted by friends.

We have several young people on the sick list in the Colony, a few of them being Baby Schreiner, Myrtle Pollock, and Irvell Kierling.

Big community dance on Friday night, June 18th, in the Gem school. Bassano's popular orchestra has been engaged. Proceeds in aid of the Gem sports day. Being a community affair the committee extend a hearty invitation to each and every member in the Colony to make an effort to be present. Excellent music, lunch counter and ice cream booth in charge of the ladies of the community. Balloons on sale for the special children's dance. Prizes for ladies and girls whose balloons last the longest. A silver cigarette case has been donated by M. Atkins for the game's prize, and the lady's prize is a box of fancy handkerchiefs, a donation from a lady member. Come and have a big time. Cards for the non-dancers.

Gen sports day, July 31st. Don't forget the date, 31st July.

Mrs. S. Selfridge spent a pleasant day with Mrs. W. Peake on Thursday afternoon.

The weed inspector was a Colony visitor during the past week.

A hurried business meeting of the Gem P. F. A. local was held on Friday night in the Gem school to discuss the necessity of having cold buds held at the elevator.

Mr. and Mrs. C. Portney and family were welcome dinner guests at the home of Mr. R. Royer.

Mrs. Schreiner was a caller on Mrs. Hamble on Tuesday.

Big community dance Friday night, June 18th in Gem school.

HANEY TELLS OF WEED MENACE

Agricultural Expert Says Weed Control Possible by Crop Rotation

J. G. Haney, superintendent of the International Harvestor Co. demonstration farms in the prairie provinces and in North Dakota, sounded a warning that the weed menace was one of the greatest problems in western Canadian agriculture today. Mr. Haney spoke briefly on the subject at the Board of Trade luncheon-meeting in the Hunter Hotel on Wednesday at noon, and in his evening address, given in the Masonic and on Sunday, he discussed the subject more thoroughly.

Mr. Haney upheld the work of demonstration and experimental farms, and said that through their work better varieties of wheat and better methods of farming had been developed.

The speaker said that weeds cause a yearly loss to Canadian farmers of one hundred million dollars. Weeds could be controlled, he said, by rotation of crops and mixed farming, and he had achieved good results by this method on his demonstration farms.

SCHOOL BALL TEAM STILL WINNING

The Bassano school has a strong baseball team, and they are still winning games. Last Friday they won 10-0 and took the Cluny boys to camp, and on Sunday they won 10-0 and took the Cluny boys to camp.

British Film Shows Fleet In Action

"Coronel and Falkland Islands" is First Motion Picture Ever to be shown by Royal Command

"The Battles of the Coronel and Falkland Islands" has fallen to the lot of the British war film ever to be exhibited in the United States. This great picture comes to the Gem Theatre Friday and Saturday this week, June 14 and 15.

This magnificent reconstruction of these immortal sea battles of the great war is something more than a mere reconstruction. It is a dramatic masterpiece which rebuends in the credit of its British producers as undoubtedly the greatest naval picture ever made in any country. The picture was made with the co-operation of the British Admiralty, the Navy League, and an advisory council which included many famous British navy officials.

The picture graphically depicts the defeat of Admiral Coadock's squadron off Coronel by Von Spee, and the subsequent action in which Admiral Sturdee chases him from the Falkland Islands and sinks the whole German squadron in a mighty effort. Bebe Daniels stars in "Take Me Home," a drama of back-stage love, coming Monday and Tuesday, June 17 and 18.

"The Sister" is billed for Wednesday and Thursday next week, 19 and 20th of June. A story of how the mark of civilization is torn aside by the terrific story of Alaskan hardships.

For Friday and Saturday next week, June 21 and 22, the headliner is "Mother Machree," an account of an Irish heart, as full of thrills as an Irish lace, and sparkling with Irish wit.

Gem is becoming quite a popular center, judging by the number of agents representing every variety of the art, who are paying so personal calls during the busy season.

Meas. Sparrow and Malone, representing Great West Life, were in the Colony on Friday last.

GEM THEATRE

Fri. and Sat. June 14 and 15

"The Battle of Coronel and Falkland Islands"

The greatest and most thrilling war film yet made. This is also a British film.

A PASSES "U" PICTURE

Mon. & Tue. June 17 & 18

"Take Me Home" Bebe Daniels as a chorus girl.

A backstage drama of love

A PASSES "U" PICTURE

Wed. & Tue., June 19 & 20

"The Sin Sister"

Pleasure bound, a party becomes icebound, and the drama begins.

A PASSES "U" PICTURE

Friday and Sat. June 21 and 22

Rosemary News

ROSEMARY, June 13—A Wheat Pool meeting was held last Friday night for the purpose of nominating a delegate. F. O. Eaton was nominated.

Billy Boyce, of Bassano, was in town Friday.

Mr. Tanguay and family spent Sunday at the home of Mr. and Mrs. Lesque at Countess.

C. C. Narum is doing carpenter work on a home near Alton.

A number of Rosemary people motored to Bassano Saturday to see "Lila Time."

Mr. and Mrs. Eaton enjoyed the company of the Adams family Sunday.

Roy Norton is the proud possessor of a home near Alton.

Mr. Thacker, who is working for Mr. Stanton at Duchesne, was visiting his sister, Mrs. Rosette, Sunday.

Mr. and Mrs. Hall visited at the Napper home in Sunday.

The Pool elevator is complete, and now stands ready for business.

Mr. Glendie and family motored to the coast last week-end.

Neil Tassart went to Calgary last Tuesday, returning Saturday.

Miss Fay Robinson spent the week-end at her home near Chinook.

THE CROPS

Wheat is coming along well, and in many fields, the grain measures eight or ten inches in height. A light rainfall occurred last Saturday night, and another early Sunday morning, but there was not enough precipitation to give the ground a good soaking. Farmers would like more rain, although the grain is not suffering.

Parsons on irrigated land in the Gem and Countess districts are irrigating their crops or preparing to irrigate.

at her home near Chinook.

Miss Cora Narum went to Arrowood last Friday evening, the occasion of the 1922 Birthday. Lunch was served at Lindhead, and those present were: Misses Fay Robinson, Margaret Norton, Madeline Eaton, Louisa Eastman, Ruth Brantwell, Erma Norton, and Wilma White.

Meas. C. Graham, Johnnie Schmidt, Frank Decker, John Norton, Neil Tassart, Johnnie Narum, Hank White, Everett, David, and Lillian White; also Mr. and Mrs. Norton.

Most enjoyable evening was spent at the home of Mr. and Mrs. White Tuesday evening, the occasion of the 1922 Birthday. Lunch was served at Lindhead, and those present were: Misses Fay Robinson, Margaret Norton, Madeline Eaton, Louisa Eastman, Ruth Brantwell, Erma Norton, and Wilma White.

Meas. C. Graham, Johnnie Schmidt, Frank Decker, John Norton, Neil Tassart, Johnnie Narum, Hank White, Everett, David, and Lillian White; also Mr. and Mrs. Norton.

Science To Rescue Agriculture

Recent developments in the realm of agriculture indicate that science is hastening to the aid of the farmer in Western Canada and that the time is not far distant when only those farmers who make an earnest study of their problems and apply to those problems the discoveries which are being made by technical experts can hope to forge ahead and secure for themselves and their families the comforts which fall to the successful business man.

There are several major problems confronting the man upon the land in the West at the present time. Among these are the questions of reducing the cost of the production of such crops, and the necessity of not only fighting, but of forestalling reduction in yields through the agency of weeds, insect pests and diseases.

High costs of production and reduced yields through weeds, insects and diseases form a combination which can only be broken by the alert farmer. Only the farmer who calls to his aid the forces of science can hope to overcome this profit-robbing alliance.

Consider, for example, the case of producing a bushel of wheat. While accurate figures are difficult to secure it is definitely known that some farmers are able to produce a bushel of wheat in their granary or in the elevator at a mere fraction of the figure which it has cost some of their neighbors to raise and harvest a similar bushel of wheat. It is a safe prediction that the cheap-production farmer has carefully studied the economic effects of the use of good seed, scientifically sound cultivation methods and the chemical and best modes of raising his crop. Not only has he done this, but he has kept some record of the cost of his various operations, thus enabling him to find out the weak spots and remedy them.

In this field of agricultural effort a great deal of pioneering work has been done by the far-sighted companies, individual farmers or the inventive turn of mind, and leaders of agricultural engineering. It only remains for the average farmer to avail himself of the scientific work already done in this direction and apply and perhaps modify it to his own conditions and circumstances. Many are already doing so to their profit.

Then there is the problem of reducing the loss to profits through the prevalence of weeds which are annually taking a huge toll from farmers. Here, again, a good deal of research work has been carried on by the University of the Colleges of Agriculture, the Provincial Government and the Federal Department of Agriculture. It has been demonstrated beyond all doubt that methods can be adopted which will keep these pests within control in some cases and in others that they can be entirely eradicated.

As an illustration of what is being done, investigations conducted by the Saskatchewan Department of Agriculture last year, as to the possibilities of eradicating some of the most serious weeds by the use of chemicals might be cited. "It is true that the tests showed that the cost of chemicals as a weed destruction agency on a large scale, may be uneconomical but the value of such chemicals in eradicating small patches and preventing them from inundating the farm was clearly proved. A combination of chemicals suitable cultivation methods, the use of clean and pure seed, will go a long way towards reducing the losses occasioned by weeds in this province."

Similar research work has been, and is being, carried on in the fight against diseases attacking wheat and other cereal grain crops. It is only necessary to refer to one of them: the efforts which are being made to breed a wheat that is only resistant to the ravages of rust but that also contains those milling and baking attributes which makes Canadian hard red spring wheat so desirable in the export market. Recent reports indicate that success in this field of endeavor is crowning the efforts of technical workers, and it is probably only a matter of two or three years before the farmers will be able to seed their fields with a rust-resistant wheat of good milling and baking quality.

The foregoing are only one or two illustrations of the manner in which science is being utilized to aid the farmer and to be successful in this day and generation. It is essential that the agriculturist inform himself of what is being done on his behalf and apply the results of the work of those trained men to his own particular problems.

Would He Bull Day

It's a dull day in the news when a search plane isn't sent out to hunt for the search plane that was sent out to hunt for the plane that got lost in the first place.

Many Trails In Parks

Blair, Jasper, Yoho, Kootenay, and Glacier National Parks, in the Canadian Rockies all have trails well marked and very pleasant to travel, some of which extend for 300 miles.

Do it at once, and it is only a matter of a few minutes; put it off a month, and you have spent a month in doing it.

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkaline which neutralizes the excess acid. Phillips' Milk of Magnesia. It remains active in the stomach for 30 to 50 years since its invention.

One spoonful of Phillips' Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude salts, cathartics, never "constipate" when you learn how quickly, how effectively Phillips' Milk of Magnesia relieves. Please let it show you—now.

Phillips' Milk of Magnesia is recommended by physicians for 50 years in correcting excess acid. Each bottle contains clear directions—any drugstore.

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude salts, cathartics, never "constipate" when you learn how quickly, how effectively Phillips' Milk of Magnesia relieves. Please let it show you—now.

Bonusing Immigrants

Feeling Seems To Be Veering Away From Coaxing People To Come To Canada

Three members of parliament, a Liberal, a Conservative, and a United Farmer, spoke the other day against continuing a heavy expenditure to induce immigrants to Canada. They represent farming districts in Alberta, Ontario and Quebec. There is reason to think that the view they express is gaining ground among farmers, and, perhaps less rapidly, among townpeople. The advisability of "coaxing" people to come to Canada is the point at issue. There is room in Canada for more people of course. There are people to spare in other countries, particularly in Great Britain. Sending agents abroad to induce people to come to Canada brings a response, there is no doubt about that. But perhaps more could come if we stopped coaxing them. There have been so many people wanting to get into the United States as since the "quota" law was passed. The close border across carefully to what lies beyond it.—Edmonton Bulletin.

FEELING WORN OUT

When the Blood Becomes Watery a Breakdown

How many girls and women suffer from headaches, pain in the back or poor appetite, nervousness and constant feeling of weakness and palpitation of the heart at the least exertion? All these symptoms may not be present in any one person, but they are all signs of a blood has become thin and watery, and good health can only be regained by enriching the blood. This should be done without delay. For this purpose, no medicine else will do so well and so surely as Dr. Williams' Pink Pills. Every dose helps to enrich the blood and tone weak nerves, and thus brings new health and vitality to the body and mind of the sufferer. The truth of these statements is proven in the case of Mrs. J. King, R.R. 5, Truro, N.S., who says: "A couple of years ago I was weak and I could scarcely walk across a room without being tired. My blood was thin and I was almost headless. I had taken Dr. Williams' Pink Pills on a former occasion, but I had not taken them for some time. I tried again. By the time I had taken a few bottles, my blood was thicker and I felt better. I continued taking the pills for several months, by which time I could walk for miles with little effort. I do all my own housework and care for four children. So you will see that Dr. Williams' Pink Pills have done for me."

You can get these pills through any medicine dealer by mail, or you can get a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Russia Has Aero-Sleighs

Fitted With Airplane Propellers They Attain High Speeds

Aero-sleighs, driven at 35 to 45 miles an hour by airplane propellers, recently crossed 100 miles from Moscow to Perm and back. Four sleighs took part in the experiment and five were accompanied them.

The machines have a body of automobile design and look, except for the propeller, like an ordinary car mounted on runners. They are capable of a speed of about 20 miles an hour and can be attained.

Miles' Worm Powders are complete in themselves. They not only drive worms from the system, but repair the damage that worms cause, and so invigorate the constitution. It is quickly recovered from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and strength and soundness follow their use.

All-Canadian Highway

Will Be Through Most Spectacular Scenery in World

Before the year is over it may be possible for one to drive from Winnipeg to Vancouver on all weather highways without detours to the United States pavements. Gravelled roads already exist from Calgary to Golden, B.C., and the British Columbia and federal governments are now building around the "big bend" of the Columbia river to join the existing road down the Fraser Canyon to Vancouver. This highway when complete from Winnipeg to Vancouver will go through some of the most interesting country and the most spectacular scenery in the world.

It then remains to bridge or tunnel Lake Superior.

Will Go For Sheep

A number of farmers around Carman, Man., are interested in the proposal to bring in breeding ewes for sheep raising on the Carman area. Payment spread over three years, and a number of applications will be sent in from this district.

Minister's Lament for sick animals.

MAGIC BAKING POWDER

There is far more MAGIC BAKING POWDER used in Canada than of any other brands combined.

Canadian Stock For United States

American Brokers Continue To Look To Canada For Foundation Stock

Some of the world's finest dairy stock, Canadian in origin, has been recently of the famous Inia herd of superb Holsteins at Woodstock, Ontario, owned by P. W. Walsh, superintendent of agriculture of the Canadian National Railways, who returned to Montreal after the sale. Desiring the sale, he undoubtedly the most outstanding herd dispersal sale of purebred dairy stock ever held in Canada.

Internationally famous stock, males and females which hold continent show ring records, were sold at the sale, which was held for the purpose of disposing of 20 head of the herd of J. W. Jones & Sons, well known breeders at Woodstock, Ontario. The sale was very prominent at the sale, and took away some of the best animals which is only another proof of the quality of stock that American breeders continue to look to Canada for their best stock.

The famous all-American bull, Abner's Sylva, which was sold to the Inia herd, fortunately, however, he is a Canadian breeder, M. L. McCarthy, of Sussex, N.B., and Mr. McCarthy also secured a fine cow, in the top with his present policy of building up one of the best stock herds on the continent.

The full sister of the champion bull, Agnes Sylva, which was sold to the Inia herd, was also sold. These two animals comprised the all-American progeny of Dan last year.

The average price paid for the 60 head sold at the sale, stated Mr. Walsh, was \$350. A number of the animals went for round \$1,000 a piece. A year-old bull went to an American breeder for \$3,000. The all-American cow of the herd, was taken up by a Canadian buyer for the same price.

Many people are almost crippled with colds. But it is needless suffering which can be speedily relieved with Holloway's Corn Remover.

Straw Board Is New Product

Good Substitute For Lumber In Construction Of Buildings

Paper made from corn stalks has been proven successful in the middle Western States. Now Western Canada has found a new and profitable use for straw. A company has been incorporated in Regina for the manufacture of straw-board to replace ordinary lumber in the construction of buildings and one machine has recently been placed in operation on the farm of T. A. McFadden, one mile north of Regina. Patent rights for Canada have been obtained. The machine, it is stated, consumes the straw under a pressure of 100 pounds to the square inch, the product being faced with wire and turned out in boards 14 feet long by five feet wide and two inches thick. The machine turns out 4,000 square feet of straw board per day. It can be used for the production of a treacherous on account of the pressure to which it is subjected and that it possesses insulating qualities to a high degree.

Guarding Canada's Coastline

Alert Vigilance Of Lighthouses Attends Major Water Commerce Possible

Except in fog or storm, Canada's rapidly growing water commerce seldom gives even a passing thought to the alert vigilance of the lighthouse service which makes that commerce possible. Says the Boston Transcript: Only in the case of trouble is the service paid to the 11,762 individual establishments of the lighthouse service, guarding the 52,000 miles of Canada's coast.

From Cape Race, at the extreme eastern point of this continent, to Lewis Charlotte Islands, on the Pacific Ocean, over 200 persons are employed in guarding the paths of trade. The lighthouse service in which they are engaged consists of 2,774 lighthouses, 267 fog signal stations, 543 gas and signal buoys, six submarine bells, twelve lightships, and 8,410 unlighted buoys, beacons and day marks.

Distribution of the various orders of lighthouses, according to regions, is as follows: New Brunswick and Bay of Fundy (both shores), 170; Prince Edward Island, Gulf of St. Lawrence and Strait of Belle Isle, 246; Nova Scotia, south and east coasts, and Cape Race, 186; Quebec, Lower St. Lawrence and the Bay of Chaleur, 280; Montreal, 242; Prescott and upper St. Lawrence, eighty-six; Parry Sound and Lakes, 178; Kenora, near Manitoba, six stations; Victoria, B.C., 146; and Prince Rupert, fifty-six.

Canada's War Legacy

Over 112 Millions Is Required For Interest On Debt

Canada's ordinary expenditures (exclusive of court and railway capital account), exceed 355 million dollars per year. Of this great sum, nearly 163 millions dollars is directly attributable to the Great War, although the war has now been over for more than a decade.

Interest on the war debt demands over 112 millions; war pensions, over 40 millions; soldiers' civil re-establishment, nearly 8 millions. There will be a large sum to be paid to the Great War mount up to almost 163 millions, the so-called war taxes raised less than 145 millions in the last fiscal year, the greater part of which is being secured from the sales tax, stamp taxes and income tax. War taxes constitute less than one-third of Canada's revenues. Customs and excise duties furnish the country with more than half her ordinary receipts.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Eucalyptic Ointment. It will pull out the pus, carry away the poison, draw out the pus and prepare a new skin for the new skin. It is a recognized healer among oils and ointments. It will pull out the pus that is healed where properly applied.

Canada Must Use Aircraft

Dr. Business Of Dominion Will Be Hampered Says General MacBrien

Major-General J. H. MacBrien, of the Canadian army, speaking at a relation to commerce and war, at the opening meeting of the Advertising Association's twenty-sixth annual convention in Montreal recently. General MacBrien declared that Canadian business would be hampered unless aircraft were fully utilized in the speeding up of communications. The highways of the air would grapple the world, he declared, and Canada must have her share. When telephone dispatching, modern airports and safety devices became more general, aviation would be the safest form of travelling, he said.

A Sixty Mile Foundation

Pendulum observations by the Dominion Observatory under the mountains of British Columbia are buoyed up by abnormally light material extending down into the earth's crust for about sixty miles. The excess of gravity revealed by the pendulum on the prairies is believed to be due to an extensive underground ridge of abnormally heavy rock.

Developing Vancouver Port Further development and improvements at the port of Vancouver, B.C., involving an expenditure of more than \$10,000,000 and bringing the port grain capacity to more than 2,000,000 bushels of storage are to be undertaken this year.

Two convicts were talking. "You know," said one, "I took John Wayne all his life to write a story."

"Marj," says the reply, "it took me ten years to do a sentence."

Sleeping On Train With Heads Towards Engine

C.N.R. Sleeping Car Officials Urge That Passengers Not Sleep With Heads Towards Engine

There is more than mere habit behind the practice of making up sleeping car berths so that the occupant sleeps with his head towards the engine and the direction in which the train is moving, according to Walter Pratt, general manager of hotels, sleeping and dining cars of the Canadian National Railways.

But because of its practice ever since the beginning of railroading on the North American Continent, it is a custom, he says, which has taken on undue importance in the public eye. There is more than one case on record in the Canadian National Railways where an entire sleeping car has had to be made over to satisfy the whims of travellers in this regard.

When the first sleeping car was put in service on this side of the water, the company had to decide the very elementary question of which way the passenger would sleep, with his head, or with his feet pointing forward. The former attitude was chosen because it was felt that any backward rush of the blood which might be occasioned by the movement of the train would be less sensible if directed towards the feet rather than towards the head.

A Broad Hint

A party of English tourists were visiting Edinburgh, and were shown the city by an old Scotsman.

At the end of the day, when the people were leaving, the old man said: "Well, I hope you've enjoyed yourself, but if any of you has lost his purse, he never had it out 'my company."

Brandon Aero Club

The recently formed Brandon Aero Club is applying for a charter to deal in all forms of aeronautics and public airport operations.

Dr. Tory Makes Pea For Furtherance Of Research Work In Canada

Hull, Ont. — "Don't be content with second rate men, but expect tremendous results in a year, but be confident in the future of scientific research in Canada. If you do this you have nothing to fear for the future of the Dominion in industry is nationalized," said Dr. H. M. Tory, president of the National Research Council, speaking before the Canadian Manufacturers' Association in the town of the council in its investigations into Canadian resources.

Outlining the unprecedented development of research into the scientific phase of industry in Britain, the United States, Japan and Italy, he said the war, Dr. Tory told the manufacturers the time had come for Canada to take her place with the other nations of the world in the setting up of laboratories and the special training of scientists to man them. "But it will be money wasted," he said, "unless the manufacturers are alive to their opportunities and employ them. The idea is rapidly passing that we must take our men from other peoples. The majority of our brilliant men are engaged in building up the industrial life of foreign lands."

Speaking of the work that had already been done by the Institute of Canada, Dr. Tory instanced the magnetic industry, where in three years of research, had been placed in a position to compete in the world market. During the past year 100 investigations had been carried on in the development of new resources and this work would be greatly extended in the new building, with the addition of students not being trained.

Discuss Tariff Question

Canadian Manufacturers' Association To Make Progress In Hull, N.S. — "The manufacturer who takes one view on protection for what he produces and another on what he buys not only is inconsistent but he undermines the very position he seeks to safeguard," was the opinion of President L. W. Bennett at a session of the Canadian Manufacturers' Association, at which the report of the tariff committee was adopted with a motion that a committee be appointed by the president to draw up a pronouncement on tariff matters.

Canada's tariff problem was different from that of any other country, said H. M. Tory, Montreal. One hand were the agriculturists entitled to special consideration in their marketing activities. Industrial development was another matter. The tariff policy must be shaped toward the goal of cheaper production and requests to the tariff committee should always be qualified to that end.

Receives Appointment

Dr. Alty, of Saskatchewan University, Accepted Post in England Saskatoon. — Dr. Thomas Alty, professor of physics at the University of Saskatchewan for the past four years, will leave for England at the end of June. He has received the appointment of senior physicist to the Imperial Chemical Industries.

This organization, which is under the presidency of Lord Melchett, is an amalgamation of the chemical industries of Great Britain. They have recently built a large new chemical story in Cheshire, where they will carry on research in pure and applied science. Dr. Alty will be in charge of the physics research.

Had Lucky Escape

Saskatoon. — Two local workmen had a remarkable escape from death when their auto was struck by an oncoming freight train at the C.P.R. tracks at Avenue I and Twenty-first Street. Their car was almost a complete wreck, but the men, although admitted to hospital, were not seriously injured. One of them was able to return to his work. The car was thrown 75 yards down the track.

Wrong Man Convicted

London, England. — After serving three months in prison, Ernest Lee, 25, received a pardon and \$500. It was found after he had served this time on a charge of poisoning a brewer's agent, and collecting a commission, that another man was guilty. The guilty party was in jail on another crime, confessed.

W. N. O. 1768

Fear Break Between China and Russia

Trouble Arising Over Arrest of Soviet Officials in Manchuria

London, England. — Russian troops were said by a Peking dispatch to the Express, to be massing on the Manchurian frontier to prevent the thousands of Chinese from leaving Russian territory. The flight of the Chinese was in fear of arrest and deprivation of their belongings in retaliation for the arrest of Soviet officials in Manchuria.

Hélgé, capital of Japan reported that Soviet consular general Kuznetsov, of Mukden, was under arrest at Huller and that intense anxiety was felt in the Harbin-Soviet community, where a complete break between Russia and China was feared.

The strained relations between the two countries began with Chinese raids on Soviet consulates in search of documents to support charges that Communists were actively interfering in Chinese internal affairs. The raids were followed by a sharp note of protest by the Soviet. Strictly suspending diplomatic immunity of Chinese officials in its territory.

REVISION OF GRAIN ACT IS RECOMMENDED

Ottawa. Complete revision and consolidation of the Canada Grain Act at the next session of Parliament is recommended in a preliminary report tabled in the House of Commons by the Parliamentary Committee of Agriculture.

The chief recommendations contained in the report are the following: Amendments to the Canada Grain Act to prohibit mixing in the four standard grades of red spring wheat; No. 1 hard, No. 1 Northern, No. 2 and No. 3.

This amendment would not become effective until August 1, 1930. "The return standard for all test samples of all statutory and commercial grades of red spring wheat be a composite sample equal to 75 per cent. of the average quality of the grade and 25 per cent. of the minimum quality of such grade at the primary inspection point. This provision would be made effective on August 1, of this year, and would apply to the current year's crop.

The board of grain commissioners to be composed of three members as at present. In addition to these there will be four assistant commissioners who are to be located, one in each prairie province, and one at the head of the lakes. The commission itself would be given power to name its own headquarters.

Certain increased powers to be given to the board to assess loss and damage in any case where a complaint is made, with power to employ inspectors in any port of importation, and to any port of exportation. Appeal from such may be allowed in the district or county court in which the person complaining is residing.

The recommendation is made that the standards boards be constituted on a different basis from that now prevailing. The producers would have one-half of the representation on the board, which would be comprised of the following:

The Board of Grain Commissioners, the chairman of the Board of Grain Appeal, the chief inspector, the chief chemist of the Dominion cerealists, one representative of the millers, four representatives of producers from Alberta, five from Saskatchewan, two from Manitoba, and one from British Columbia.

Air Service To Stockholm

Incorporation Papers For Great Atlantic Airways Have Been Filed Portland, Me. — With authority to develop and maintain a regular air service between the United States, Canadian and European airports, linking this city with Stockholm, Sweden, the Great Atlantic Airways has been organized here.

The route would be via Belle Isle, Strait, Julianahab, Greenland, Agassiz, Greenland, Bepkoyk, Iceland; Thorshavn in the Faroe Islands and Oslo, Norway.

Incorporation papers have been filed with the State Department in August.

Stowaways Found

New York. — Eight stowaways, four of them women, were discovered aboard the United States liner "Republic" when she docked at Hoboken. They were found hidden in a cargo compartment. They had been paid \$1,000 each to be smuggled into the United States. They came from Poland and Lithuania.

ESTIMATES FOR DEFENCE MEET WITH OPPOSITION

Ottawa. — Canada had denounced war as a national policy and for this reason it was inconsistent that the estimates for the department of national defence should show an increase, declared Miss Agnes MacPhail, Progressive member for St. East Grey, in the House of Commons.

Miss MacPhail was emphatic in opposition to the national defence estimates and during the consideration of cabinet services moved an amendment to reduce the amount of the appropriation from \$500,000 to \$11. The amendment was defeated 56 to 15.

Debate On Comparative Advantages Of Foreign And Domestic Trade

Mount Vesuvius In Eruption

Heavy Fall Of Smoke and Ashes Hangs Over Naples

Naples. — Huge Clouds of smoke, laden with ashes from the belching throat of Mount Vesuvius, hung over Naples and turned the brightness of noon into a kind of twilight.

Neapolitans were unable to see their familiar land mark which was shrouded by the screen of smoke issuing from its crater.

The Associated Press correspondent visited Terzigno and found conditions terrible. Families were with their children taking refuge in the castle. They fled into the churches on the line of retreat, invoking Saint Genesio and praying before Neapolitans were unable to see their familiar land mark which was shrouded by the screen of smoke issuing from its crater.

Troops took possession of villages to prevent marauding of the inhabitants had departed.

Former Kaiser Is Barred From Entering For A Further Period Berlin, Germany. — Former Kaiser Wilhelm is barred from entering Germany to spend his last days as a pensioner again when the Federal Council voted 42 to 4 in favor of a government bill to bar him for three years the law for the protection of the republic which would have expired soon.

The law permits the government to keep the former Kaiser out of Germany as a menace to the Republic. It was passed by the Reichstag in 1922 as a result of an emergency measure, after the assassination of Walter Rathenau.

His Majesty's Condition Is Improving Bulletin Issued By Physicians Show Kaiser Showing Signs of Progress

Wilhelm, Emperor of Germany, is showing signs of improvement. The physicians who are attending him report that he is recovering from his illness.

Three physicians visited the monarch recently and issued a bulletin showing satisfactory progress.

Complete recovery probably will follow, but all anxiety has passed from the royal household.

SUNDAY SCHOOL LESSON JUNE 16

4 DASH TAKEN CAPTIVE Golden Text: "Righteousness exalteth a nation: But sin is a reproach to any people." Proverbs 14:34. Lesson: 2 Kings 25:1-21. Devotional Reading: Psalm 107

Explanations and Comments The siege of Jerusalem, which was the subject of the lesson, was a significant event in the history of the Jewish people.

In the ninth year of Zedekiah's reign, 587 B.C., the tenth month, the Babylonians, under the leadership of King Nabuchadnezzar, laid siege to Jerusalem.

The king's bodyguard to whom such duties belonged, came to complete the destruction of Jerusalem. The work of devastation was thoroughly accomplished. The gold and silver vessels and the pillars and vessels of brass were carried off by the king's army.

Montreal. Miss Kathleen A. Mullan, of Regina, Sask., was prize winner in the story contest held by The Canadian Legion, an official organ of the Catholic Women's League of Canada. Miss Mullan received a prize of \$25.00 and a story, "Youth of Israel Rebels."

Forest Fires In Japan

Damage To Property Already Over Three Million

Tokyo. — Heavy rains on the island of Saghalien and Yokkaido, have greatly lessened the threat from forest fires, although rearmament fire fighters are rebuilding their efforts hoping to end the menace while the rain continues.

The governing general of Saghalien reported losses on his island including 1,141 dead, 163 seriously injured, and 1,200 houses destroyed, 4,710 horses, and about \$2,500,000 damage to urban property. Damage to the forests had not been estimated.

Queen Cables Prince Vancouver. — H.R.H. Prince Harry, Duke of Gloucester, who suffered a fractured collarbone when his mount slipped during a polo game here, has received several messages from His Majesty Queen Mary, inquiring about his condition. The Prince has assured the queen that he is enjoying a good recovery.

To Be Presented At Turin London, England. — Thirteen Canadian women who are to be presented at Turin June 26. Those to be presented by Mrs. P. C. Larkin, wife of the Hon. P. C. Larkin, Canadian High Commissioner, London, include Mrs. J. H. Woods, Calgary, wife of the managing director of the Calgary Herald.

Was Story Correct? Montreal. Miss Kathleen A. Mullan, of Regina, Sask., was prize winner in the story contest held by The Canadian Legion, an official organ of the Catholic Women's League of Canada. Miss Mullan received a prize of \$25.00 and a story, "Youth of Israel Rebels."

Ceremonial planting at La Paz, Peru, in which the whole community joins in prayer for a bountiful harvest. The photograph is of a painting by J. E. Simpson, G.S.A., a Canadian artist.

TO STUDY CONSERVATION OF NATURAL GAS
Dr. R. C. Wallace, president of the University of Alberta, and A. A. Carpenter, chairman of the Board of Utility Commissioners, are the Alberta members of a committee who will co-operate with Dr. Chas. Camwell, deputy minister of mines, and Dr. A. W. G. Wilson and C. C. Ross, appointed by the Dominion Government to investigate the possible conservation of natural gas at present going to waste from oil and gas wells in this province. The committee will look into such matters as the conservation of gas by storage underground and the utilization of gas as a fuel or as a source of other materials such as oil, carbon black and various chemical products.

BETTER SERVICE WANTED
Before the Calgary Power Co. took over control of the electric light and power system in Bassano we were getting good service. The lights were bright, the current was steady, and interruptions were very infrequent.
Since the Calgary Power Co. took over the system, however, the service has not been satisfactory. The strength of the current fluctuates; sometimes the lights are bright, and sometimes dim, and occasionally the current supply fails completely, and shopkeepers and householders have to worry along with lamps and candles.
It is true that the Calgary Power Co. has made some improvement over the service they gave during the first few weeks of operation, but there is room for much more improvement.
The electric light consumers in Bassano are paying a good price for their electricity, and they feel they are entitled to better service than they have been getting. Perhaps the Calgary Power Co. is aware of conditions in Bassano and intends to remedy them, but until such improvement is brought about the Bassano customers of the company will not be satisfied.

THE TRAINING OF CADETS
Opponents of cadet training denounce it as a ruse of the militarists to teach boys the art of wholesale murder-war. Cadet training, they say, cultivates the boy with its glamour of uniform and its thrill of military tactics, instilling in his mind thoughts of battle, bloodshed, and courage.
War is wicked, cruel, inhuman, and monstrous, but we do not believe that cadet training creates a bellicose class of young men who clamor for battle. We do believe, however, that it is a splendid thing for boys. It gives them clean, healthful exercise and physical training that develops their bodies. It teaches them manliness, self-reliance, and clean habits; it develops their initiative, and instills in them courage and alertness, and the discipline they receive in the corps develops in them a spirit of toleration and respect for others.
Cadet training has many splendid virtues, and we hope it is continued in our schools.
And now the time has arrived when we have vacations, picnics, fishing trips, auto, flies, and mosquitoes.
Popular Lyrics
(by Miss Carman)
Make me over, Mother April,
When the sap begins to stir;
When the flowers hand delivers
All the mountain-prisoned rivers,
And thy great heart beats and quivers
To revive the days that were.
Make me over in the morning
From the rag bag of the world
Scrap of dream and deeds of daring
Home-brought stuff from far sea,
Fading colors, once so glaring,
Shreds of banners long since
Faded!
Hues of ash and glints of glory.
In the rag bag of the world.
Only make me over, April,
When the sap begins to stir!
Make me man or make me woman,
Make me out of air or human,
Cup of flower or cone of fir;
Make me anything but neuter
When the sap begins to stir!

March of Culture
First Lady: "You retard, decaunt, scold, scold, ferrugineous, neurotic, rascally, you!"
Second Lady: "Would you listen to the language of 'er since she's been doin' crossword puzzles."
Through all their years of married life
He'd never uttered
One hasty word towards his wife;
Poor chap - he stuttered.
Soft Pedal
"James, call up my dentist and see if he can give me an appointment."
"Yes, sir."
"And - James - don't press him."
Scott (to friend while visiting in London): "Now, mon, I can't stand taxi-cabs! When I sit in 'em back to the driver it makes me sick, and when I sit in 'em face the taxi-meter it makes me feel like a better."

"I don't think so—she has gone to live with them."

PRECISION WORTHY OF THE COSTLIEST CARS

NOT only in its impressive appearance, but in every detail of its construction—in every phase of its performance—Oldsmobile is comparable to the more costly of fine cars. This old, well-balanced excellence of Oldsmobile Six is obtained in only one way—in the strict Oldsmobile policy of precision workmanship and rigidly maintained standards of quality.
You will find the results of this fine-car precision in the smoothness, ease of handling, absence of vibration, response to acceleration of Oldsmobile's 62 horsepower engine. You will find evidence of it in the harmonious working together of all Oldsmobile parts, regardless of speed or road or distance.
You will find, too, quality features unapproached by any save the higher-priced cars—rubber engine mountings; rubber chassis insulation; fabric headlining to prevent metal-to-metal contact; pressure-lubricated piston-pins; high-compression cylinder head... to name but a few.
To discover the satisfaction of fine-car ownership, let us arrange a trial drive in the new Oldsmobile Six.

GIRLS HAVE ROCKY RANCH CAMP

The Lake Windermere Bungalow Camp which was the first of its kind established in the Canadian Rockies will this year be transformed into a Ranch-Camp for girls under the direction of Miss Mary E. Cutler, of Minneapolis, and Dr. Harriet E. Cooke, of Chicago, who have had considerable experience in the management of such Camps and have selected this as an ideal spot for girls desiring an active outdoor life, combined with instruction in art.

The staff includes instructors in riding, swimming and camp-craft, in addition to teachers of handicrafts and painting, and the course will include participation in the annual four-day cross country ride of the Trail Riders of the Canadian Rockies. Both Miss Cutler and Dr. Cooke have spent several summers in this region and are enthusiastic about the healthful value of ranch-camp life in these Alpine regions of Canada for the

younger generation. They took part in last year's Trail Ride to the Lake of the Hanging Glaciers which is in the Lake Windermere district, and have engaged Walter Nixon, the well-known hunter and guide to supervise the trail riding expedition which will form part of the course in camp-craft for the girls. The Hon. Randolph Bruce, of Columbia, has his summer home in the neighbourhood and is taking a keen interest in the movement.

Here and There

(319)
The largest shipment of live quakrats ever to be shipped from Canada, a thousand in number, were carried by Canadian Pacific Express Company from Oak Lake, Manitoba to Montreal, Ontario, recently. They were trapped in the breeding grounds on the Mackinac Island farm and shipped in boxes, each box holding twelve pairs. They were shipped under P. Freighter's supervision from Montreal and the quakrats were in good condition with a minimum of casualties when they reached destination.

The Royal York Hotel, Toronto, largest, hotel, and highest building in the British Empire, will be opened by His Excellency the Governor-General, June 11. The following day will be reception day for guests and the hotel is booked to capacity. The whole water front of Toronto is rapidly becoming that of New York with the building of immense structures of which this is the outstanding.

On the authority of an official report recently issued it appears that the bicycle is gaining in popularity in Canada. In 1925 production of bicycles in Canada reached a new record with the selling value of products 52 per cent higher than in 1924. Last year 127,799 wheels were sold valued at \$895,480.

Within the next few weeks the largest re-forestation venture so far made by the Ontario Government will be under way in the planting of 120,000 trees in the Pashan district near the Soo. This is to be largely experimental and as a guide to schemes under contemplation for the future in different parts of Ontario.

W. E. Wilford will assume the title of purchasing agent, Canadian Pacific Railway, Toronto, according to an announcement recently given out by H. W. Roberts, general purchasing agent of the railway. Mr. Wilford will have most of the time in connection with the Royal York Hotel purchases. He joined the company as a clerk in the purchasing department in 1908.

Fourteen cases of orchids were carried from England to Japan recently under the auspices of the Canadian Pacific Express Company to the order of the Emperor of Japan. The Empress and members of the Imperial Court. They are sent out from England about three times a year and are highly prized by the Japanese Royal Family and Court.

"You didn't see the number, but could you swear to the villager: 'I did, but I don't think he heard me.'"

PIGUREN RETURNS FROM DAIRY COWS

(Montreal, Family Herald and Weekly Star)

When a farmer has been making an honest effort to get the most from his herd of dairy cows through accurate book-keeping, feeding, and proper housing, one of the first problems which confronts him is, "how strictly should I sell my herd?" The answer to this question depends on a number of things. To begin with he should set a standard of production for each of his cows which can be arrived at by a glance at his last record of yearly production of both milk and butterfat. Three hundred pounds of fat per year per cow is necessary under average conditions for the animal to show a fair profit over costs of production. If the average butterfat percentage is 3.13 or less it will require more than 8,500 pounds of milk to give 260 of fat; if the test is 4 per cent only 7,500 pounds; a 4.13 per cent test needs more than 6,600 pounds of milk per year, while with a 5 per cent test only 6,000 pounds is needed. There are also many individual traits which may turn an owner against an animal. Small teats, or more blind teats, an ugly disposition, objectionable color markings, all these lower the value of a dairy cow. Only the first named fault can be corrected. The first named fault brings up a separate problem which is whether to discard an animal with small teats or an objectionably shaped udder if her record is good. Here is where the quality and type of the herd bull, as well as the breeding which is behind it, count for a lot. A definite answer of the above question can only be had after her calf has been suckled. But improvement in a dairy herd needs the maintenance of a high standard of production and type.

HEALTH SERVICE OF THE CANADIAN MEDICAL ASSN.

"WHERE THERE IS DIRT THERE IS DANGER"

The title for this article is the slogan which is used by an English health agency called the Health and Hygiene Committee. It is a slogan with such slogans is that while they are catchy and easily fixed in the mind, they very often contain a half-truth which is misleading. No one is going to say a word against the teaching of cleanliness. A clean body, a clean house and a clean town are all very desirable. Most people like clean things and are repulsed by dirt. When we are told that dirt is dangerous, it is worth our while considering what is meant, and how true it is.

Our readers will remember that disease germs enter the sick person in the secretions from his body, and that as long as the secretions continue to be moist and to be protected from the sun's rays, the germs will remain alive. We refer to this fact because it is upon our understanding of it that we are brought to realize the danger of dirt. Dirt, which is soiled by human or animal secretions is dangerous because of its likelihood that it contains disease germs.

Disease germs, in order to cause disease, must gain entrance to our bodies. They cannot get in through unbroken skin. The mouth is the door through which most of them enter. The truth is that most germs enter through bodies because we either eat or drink them.

If dirt soiled by secretions gets on our food, in the milk we use, or on our hands, and if with our dirty hands we touch food which goes into our mouths, we have taken into our bodies the germs of disease.

All dirt is not contaminated, but because we cannot tell by looking at it whether it is or not, we should, to be on the safe side, consider all dirt dangerous. We can protect ourselves from the dangers of dirt by keeping it out of food and drink and, above all, by keeping our hands away from our faces and by thoroughly washing the hands before eating.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St., Toronto, will be answered personally by correspondence.

Pride

Mrs. Suburb, having lost her key to the kitchen clock, went into town with her husband to get another. Mr. Suburb waited across the street while his wife went into the jewellers. Presently she came out again. "Got it?" asked Mr. Suburb. "No," said his wife. "Why not?"

"Well, Mrs. Swager was in there buying pearls, so I couldn't ask for a key for the kitchen clock." "What did you do, then?" "Oh, I just engaged her how long it would take to clean a diamond tiara."

One on Taft

Chief Justice William H. Taft delighted to tell of one of his maiden speeches in which he was anything but a hero. The speaker was on that matter of tanks, attacking the government, when the heckler cried out, "You're wrong, sir!"

A little nettled, Taft continued without hesitating. Presently, in answer to another strong assertion, came again: "You're wrong, sir!" Taft looked angry, but continued on the warpath. "You're wrong, sir!" again rang out. Angry and dressing the heckler, Taft cried:

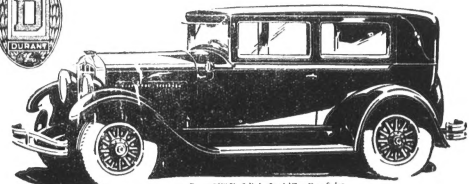

"Look here, I could tell this man something about the government that would make his hair stand on end." "You're wrong again, sir!" came from the critic, as, amid the roars of the crowd, he stood up and removed his hat. His head was as bald as a billiard ball.

Lowest Price in Frigidaire history

THE new Frigidaire represents the greatest value ever offered in electric refrigeration. It embodies every essential Frigidaire feature—including the famous Cold Control. It is offered at the lowest price in Frigidaire history—and with General Motors easy payment terms. It operates from farm electric plants or central station current. See it right away.

GOVERNMENT COLLECTING
AGRICULTURAL STATISTICS

The co-operation of farmers and others, throughout the province is urged during the present month in the agricultural survey being conducted by the Dominion Bureau of Statistics. On cards which are circulated through rural schools, farmers are asked to report the number of acres of the various crops being grown this season and the number of livestock or various classes kept on their farms. It may be pointed out that the information when supplied to the government is of a confidential nature as far as the individual farmer is concerned, and that those supplying the information asked for are greatly assisting the government in compiling its agricultural statistics from which crop estimates and other reports are later issued.

INCREASED AUTOMOBILE
REGISTRATION

The number of automobile licenses issued in Alberta during the first five months of 1929 exceeds by more than 3,000 the total number for the year 1928. It is announced by E. Trowbridge, deputy provincial secretary, already this year more than 36,000 cars and trucks have been registered as compared with 37,221 last year. A considerable increase in the consumption of gasoline is also indicated by Mr. Trowbridge's report which shows that the revenue from gasoline tax for the first five months has exceeded that of the same period in 1928 by some \$170,000.

His (copy): "If you had to marry before the clock struck midnight, what would you do?"

Communication

CADET TRAINING AND
THIS NEXT WAR

Editor, Bassano Mail:

Reading your issue of last issue that a letter from Calgary was to inspect the cadet corps of the Bassano public school this week. I could not resist the temptation to write you an extended paper, briefly, on the subject.

As we all know, cadet training in the public school is the first step in military training. It is the aim of the military to instill young boys with the glamour of a uniform and the thrill of military tactics. It is the act of planting the seed of whole sale murder in the heart of a child, for even a child knows that soldiers shoot to kill human beings, and a cadet knows and feels proud of the fact that he is being given "military training."

Just this week, when I was reading of your coming cadet inspection, J. H. Thomas, one of the leaders in the British Parliament, and the new cabinet Minister of the Privy Seal, and deputy leader of the Labor party, was telling Parliament something terribly ghastly about the last war. He repeated the evidence in a recent British military investigation which showed that the British boys, the shadow of a doubt, that British boys 18 and 19 years of age, who had been drafted into the armies toward the end of the war, had shown fright and lost their nerve at the frightfulness of actual war. A large number of these boys in various regiments, who showed fright and gave symptoms of running away and causing a stampede, were actually shot by their own British officers.

That is a hint of what cadet training might lead to. War is war, and the boys with some military tactics will be the first to be drafted. If they are not blown to atoms by an enemy bombardment they might easily be shot to death for so-called cowardice, by some brutal officer of their own country.

If a boy has been reared in a civilized home and has had the seed of kindness and fellowship and gentleness instilled into his boyhood by a thoughtful mother and father, his horror at the sight of wholesale murder, is called cowardice, and his officer is permitted to shoot him to death for his youthful training.

I think we will all agree that Canada did her part well in the great war without a large trained army. We will probably do even better in the coming war for which all the militarists are praying. So why needlessly encourage our boys to become enthused at the sight of a uniform and to become eager to enter a meaningless life of hatred and utter senselessness?

Yours very truly,
BERT HUFFMAN

Alberta Institute
Of Co-Operation

Lethbridge Olds Vermillion

JUNE 24th - 29th, 1929

Arrangements have been completed for the holding of three separate Inst. Inst. of Co-Operation in the Province, similar to the one which proved so successful at Edmonton last year.

The meetings will be addressed by speakers who are outstanding authorities on various phases of co-operation in many parts of the continent, and special attention will be paid to the problems in co-operation affecting Alberta farmers. The co-operative marketing of wheat, livestock, dairy products, and poultry and eggs, and the consumer's co-operative movement will be discussed and discussed. Special arrangements are being made for the junior section of the Institutes, and for the instruction and entertainment of the young people who will attend.

Plan to attend the Institute nearest your home, and in order to secure accommodation, communicate at an early date with the registrar—

M. L. FRENG, P. R. GRISDALE, W. J. RELIOTT,
Dist. Agriculturist Principal, School of Agriculture, Principal School of Agriculture,
LETHBRIDGE, ALTA. OLDS, ALTA. VERMILION, ALTA.

CROP REPORT

Third Fortnightly Crop Report
Issued by the Department of
Agriculture, Edmonton

Crop conditions throughout the greater part of the province are very promising, and grain is showing splendid growth, according to telegraphic reports received by the Department of Agriculture on Friday for the third fortnightly crop report of the season. Motions require-ments for some weeks have been supplied by the heavy rains, which visited the southern section of the province over last week-end, and all crops are growing rapidly.

Prospects in the Peace River district are very promising and any immediate danger of drought has been removed by frequent rains during the past three weeks. Crops growing on land newly broken last season are looking exceptionally well.

In the Edmonton district and for some distance south and east the continued absence of precipitation is beginning to cause some concern, although in very few localities has the drought as yet seriously reduced the prospects of a crop. In some limited areas high winds have caused damage from soil drifting, but this is by no means general. Breaking on new land has been retarded to some extent in this section of the province by the absence of moisture in the soil, while in the south a larger average than usual is being broken in readiness for next season's crop.

Early snow shown in most localities is to be considered good ground, and a very promising start of fall wheat is reported from many districts in the south. Alfalfa and sweet clover are making a vigorous growth and prospects of an increased tonnage of sugar beets are excellent. Livestock generally is in good condition and in a number of districts increased numbers of farmers are making a start with a small flock of sheep.

After shaking hands at the depot one colored man enquired of another "Didn't you marry de widow Jones de first of January?"

"De first week she called me honey, de next week she called me old, and de third week she called me a fat man, and I've kinder got a hunch she don't like me."

CANADIAN WHEAT BEST

Winnipeg. Wheat from the prairie provinces of Canada is the finest received in Germany from any country in the world, said Johann Lange, one of the seven German millers making a tour of the North American wheat growing and milling centres. "Canadian mills are second to none. If mills visited in Winnipeg may be accepted as representative of Canadian plants," Mr. Lange added. "In operation, cleanliness, and the beauty of the flour turned out, we have seen nothing better since we arrived on the continent."

UNIVERSITY REACHES
MAJORITY

Edmonton: The University of Alberta has just celebrated its twenty-first birthday. The first president, Dr. H. M. Tux, now president of the National Research Council of Canada, and the first premier of the province, Hon. A. G. Rutherford, participated in the anniversary ceremonies.

The Perfect Cleaner
for the Small Home

THE PREMIER JUNIOR may fairly claim to be the perfect cleaner for the small home. It was designed expressly to meet the needs of the average home or apartment.

With a few motor strokes the Junior's swift-driven brush and super-suction extract every atom of dirt—even the deepbedded dirt—from carpets and rugs. Your cleaning is done in a few moments. Time that you used to spend in cleaning is your own to play in!

The Junior fits in the storage space of a broom, and never needs oiling.

District Musical Festival Mooted in Drumheller Early in 1930

Acting on the suggestion of officials of the Alberta Musical Festival Association a District Festival Committee was organized on Thursday last in Drumheller when it was decided to make preparations for a district festival early in 1930. W. W. Gillinder, choir leader and organist of Knox choir, Drumheller, was elected president, and a number of provisional committees were established.

To make the Festival Committee fully representative the provisional executive are anxious to have Bassano district select a member for this body as it is their intention to invite senior and junior choral organizations, instrumental groups, and individuals to compete in the various classes.

A further meeting of the Musical Festival Committee will be held in Drumheller on Thursday, June 20th, when the question of preparing a syllabus will be discussed following a report by the syllabus committee who are sketching a rough outline to be submitted. The syllabus will be compiled at the earliest possible date so that they can be released early in the fall.

Local music lovers who are interested in the musical advancement of the district are invited to communicate with Archibald Kay, editor of the Drumheller Mail, who is acting as secretary for the time being.

**Why not
have your clothes
tailored
to measure?**

\$27.00

It always pays. You get the style you want--made for you. You have your own choice of fabric, color, and pattern.

Yet, here, tailored-to-measure clothes cost no more than you'd pay elsewhere for ordinary ready-mades.

Come in today and see our big showing of new and all wool fabrics. You can't get better clothes value anywhere.
